## Principal's Report

- Each cohort has their own area of the school grounds which rotates each day. EA's follow their cohort for supervision.
- The double lunch & break schedule has made things much more relaxing.
- There are approximately 88 Hybrid students
- The school has provided each division with their own ball bags from the PE equipment and request that PAC consider funding replacements of lost/damaged equipment. These balls are for recreational use only and will not be used in gym classes.
- Kids will be allowed to use lockers in the next day or so.
- Gym classes are just starting to get going. Extra-curricular sports are still getting sorted out.
- Start times don't need to be staggered because of multiple entrances, the school acknowledges that kids are going to mingle outside of school no matter what the rules. Each cohort has their own entrance.
